January 14, 2020

- Over the past year I've had the privilege to witness the behind the scenes of Kathleen W. Rollins Hall
- My experience embodies the purpose of this building and Rollins Gateway
- My curricular pursuits in a Communication Campaigns course developed into an extracurricular opportunity that sets me up for success as I enter the professional world, fulfilling the Rollins mission
- My path and experience is not because I was in the right place at the right time, but rather because I had a group of advisors who wanted to see me succeed
- Before this semester they were spread out across campus, and Rollins Hall finally brings these individuals together so they may connect the dots for every student who enter the building.
- Each student's journey is unique, but Rollins Hall has the resources to ensure that every Tar has a meaningful success story.
